

Vended, Overall

I'm stuck in another cycle
Get out of my head
Cut the thread
Disconnect!
Where to start, I know
I lost it, they all fled!
I lost it, they all fled!
Once again, just like all my seams, I'm tangled in their web

I shoved my head in a box
Pandora opened it
No one else's even there to watch
It's leaching off my hell
I salt the wound myself
The permanence seeps like a pus
Over all

Mutilation deep inside my skull
Break my faith and say it's for the cause
Start me over I'm just worried I'll
Loose my grip with what was overall
Mutilation deep inside my skull
Break my faith and say it's for the cause
Antisocial I'm just worried I'll
Loose my grip with
What was over all

Go! away!
You never helped me anyway!
Ok!
How long until you dissipate!
I'm depraved
How could you say this was humane!
Don't you realize I'm tearing all my parts away

I'm tearing
All my parts away!

I shoved my head in a box
Pandora opened it
No one else's even there to watch
It's leaching off my hell
I salt the wound myself
The permanence seeps like a pus
Over all
It's leaching off my hell
I salt the wound myself
The permanence seeps like a push
