

# Vendetta Red, The Body And The Blood

sister insomnia  
my eyes weep worms for you  
angel anathema  
I'll drink your blood

the blood you shed for me  
was all you gave to me  
my bold bulimic belly dancer  
narcissistic necromancer  
run just run from me

as day consumes the night  
the earth shall cover me  
medusa madonna  
murder me marry me

the blood you shed for me  
was all you gave to me  
my bold bulimic belly dancer  
narcissistic necromancer  
run just run from me

under your vapid vultures wings  
I'll suckle your black milk  
and let it trickle down my tongue  
your womb mouth kiss could kill

as day consumes the night  
I'll drink your blood

the blood you shed for me  
was all you gave to me  
my cold kinetic claws and cancer  
narcissistic necromancer  
run just run from me

this time all riots I'm ready  
this time all riots I'm ready to go  
this time all riots I'm ready  
this time all riots I'm ready to go
