

Venerea, Scythe

in the mean time
while they live below their means
in the crooked mansion on the hill
the deal goes down
a new raw deal from the deck of the overripe

NO!
they're reaping what you sow
Let go!
know your foe
don't let the wicked get no rest
level your scythe at the crest

choose your side and reap what you have sown
take your side and reap what you have sown
choose your side and reap what you have sown
take your scythe
