

Venke Knutson, Beyond My Dreams

Running around it's night time
I try to picture me with you
I want to share a secret
Let you in on something new
But I can't explain, I don't know what to say

You're beyond my dreams
Beyond belief
Within my reach I have found you
Beyond this world
Beyond no doubt
But Within my reach I have found you

Looking around you're long gone
still I can't seem to move my feet
Shouldn't keep waiting
But I feel this way each time we meet
I can't explain I don't know what to say

You're beyond my dreams
Beyond belief
Within my reach I have found you
Beyond this world
Beyond no doubt
Within my reach I have found you

Beyond this world

You're beyond my dreams
Beyond belief
Within my reach I have found you
Beyond this world
Beyond no doubt
Within my reach I have found you

You're beyond my dreams
You're beyond belief
Beyond this world
Beyond no doubt
Within my reach I have found you
