

Venke Knutson, In2u

The way you came into my life
Your crazy kicks were messin' me up
But now I've seen thru your disguise
Our fates are turning to one

Try me, try me
Can I hold your gaze upon me
Show me, show me
Your darkest recess
Let's shelter from this town

A shady smile
A hidden lie
I've had enough - I'll leave this town
Cause I'm into you now
You've picked me up
From nowhere land
I'll be your girl - you'll be my man
Cause I'm into you now
I'm into you now

Stand still I want to memorize
Your face for the days we're apart
I'll keep your secrets to myself
And you'll keep my tears for a while

So - Try me, try me
Can I hold your gaze upon me
Show me, show me
Your darkest recess
Let's shelter from this town

A shady smile
A hidden lie
I've had enough - I'll leave this town
Cause I'm into you now
You've picked me up
From nowhere land
I'll be your girl - you'll be my man
Cause I'm into you now
I'm into you now

Try me, try me
Hold me, hold me
Show me, show me
Your darkest recess
Let's shelter from this town

A shady smile
A hidden lie
I've had enough - I'll leave this town
Cause I'm into you now
You've picked me up
From nowhere land
I'll be your girl - you'll be my man
Cause I'm into you now
I'm into you now
I'm into you now
I'm into you now
I'm into you now

You've picked me up
From nowhere land
I'll be your girl - you'll be my man

Cause I'm into you now
I'm into you now
I'm into you now
