

Venom, Angel Dust

Living running out on the streets at night searching hoping for the right connection
'Cause I need it want it you know I've got to have it takes me higher than anything I know
Angel dust need a shot to see me through the day
Angel dust want a lot I've got to get away
I live my life like there's no tomorrow take no chances I'm drowning all my sorrows

Angel dust need a shot to see me through the day
