

# Venom, Deadline

I lust a princess - A crystal queen  
Virginal whiteness is all that I dream  
To make a contact - I'm dying to feel  
My magic snow - Show me your real

Watch out - You there  
She makes you feel good  
Don't you care  
Inside - Can't fight it  
You bring your money and be there  
For the deadline now

It's a deadline now  
For the midnight frost  
It's a deadline now  
It's a deadline

Give me an angel - Blow me a breeze  
You walk on silver - Travel the seas  
Hunting a killer - It's a jungle disease  
Watching in marvel you'll steal her release

Watch out - You there  
She makes you feel good  
Don't you care  
Inside - Can't fight it  
You bring your money and be there  
For the deadline now

It's a deadline now  
For the midnight frost  
It's a deadline now  
It's a deadline now

My mind's in torment - Something's not clear  
I take my goddess where nobody hears  
She sees right through me - She's in my mind  
Mother of madness - Immortals blind

Watch out - You there  
She makes you feel good  
Don't you care  
Inside - Can't fight it  
You bring your money and be there  
For the deadline now

It's a deadline now  
For the midnight frost  
It's a deadline now  
It's a deadline now  
It's a deadline now  
It's a deadline now  
It's a deadline now
