

Vent, Stalker

You
Don't give up
You're my stalker
Leave me be

I know I should not pretend
That I like you
When you just suffocate me
A lack of O is killing me
I'd kill you if I could

You
Don't give up
You're my stalker
Leave me be

You
You're my stalker
Feed on me

And just when I think you're gone
There you are
To rape me and try on my clothes
I fear for me sometimes
Let me go
You want me inside you
Swallow me down
I'm static
You're clinging
You're my klingon
