

Venus, Out Of Breath

While the dawn
Slowly appears
You fall asleep

All you own
Is time that's gone
Burying your fears

While the night
Sadly escapes
You sweetly heal

A cloud of hope
Floats like a dream
You finally breath

The haze has blown
The night has gone
Horses run
Through the fields
See the sun
It has appeared
And now it burns
And I feel free

The haze has blown
The night has gone
Horses run
Through the fields
See the sun
It has appeared
And now it burns
And I feel free

While the dawn
Slowly appears
You fall asleep
