Venus, Out Of Breath

While the dawn Slowly appears You fall asleep

All you own Is time that's gone Burying your fears

While the night Sadly escapes You sweetly heal

A cloud of hope Floats like a dream You finally breath

The haze has blown The night has gone Horses run Through the fields See the sun It has appeared And now it burns And I feel free

The haze has blown The night has gone Horses run Through the fields See the sun It has appeared And now it burns And I feel free

While the dawn Slowly appears You fall asleep
