

Venus Outback, Black Flag

I don't know any more
Got a life to explore
I'm the one you adored
I was wanted by you
But I found it at last
All the memories from your past
You see the truth came too fast

I would love to be your mornings
But I wouldn't like to be your old black flags
I would love to hear your warnings
But don't bring me your old black flags

Memorising the sounds
Memories that I found
What comes around goes around
Know I'm haunted by you
What we had seemed so pure
What we had, had no cure
I'm afraid it's all over

I would love to be your mornings
But I wouldn't like to be your old black flags
I would love to hear your warnings
But don't bring me your old black flags

I would love to be your mornings
But I wouldn't like to be your old black flags
I would love to hear your warnings
But don't bring me your old black flags
