

Venus Outback, Vaseline Teen Enterprise

Under the grace of God
I've been watching you
Through all you do
Under the grace of God
I've been following you
Through what you fall into
Under the waste of time
You satisfied their needs
With a handful of Vaseline
Under the taste of crime
(Taught) from the silver screen

Cause Vaseline Teen Enterprise
It's everywhere, where no-one cares to see, it's more than sin
Name time and price and I'll meet you there if you can bear to see
What's under my skin, everyday
What's under your skin, everyday

Under the grace of God
I've been watching you
Through all you do
Under the waste of God
I've been following you
Yes, I've been falling too
Under the wasted time
There was nothing I could say
That could make her stay
So she took her life on New Year's Eve
Just like the rest that God deceived
Or was it you and me
Probably
