

# Vera Dominguez, Le Spleen

When you wake me up  
take me for a ride  
can you realize that  
I love the way you drive.

When you take downtown,  
take me for a ride,  
maybe crazy,  
Can you realize that  
I love the way you drive.

And it's truth, baby,  
I've got le spleen.  
My body is heavy,  
but mind flies from with them.  
It's truth, baby,  
I've got le spleen.  
So distinguish to,  
live the way I lived.

And please light my cigarette.  
Keep on smiling,  
and turn the music up.  
I love the way you cough,  
when you breathe my smoke.

Please light my cigarette.  
Keep on smiling,  
and turn the music up.  
I love the way you cough,  
when you breathe my smoke.

...tell my secret,  
the way you turn on  
my very secret,  
my little piece of sky.  
I'm drying all around,  
Tell me why you tell my secret  
or why you tell non.  
My very secret  
My little piece of sky  
I'm drying all around

It's truth, baby,  
I've got le spleen.  
My body is heavy,  
but my mind flies from with them.  
It's truth baby,  
I've got le spleen.  
So distinguish to live the way I lived

And please light my cigarette.  
Keep on smiling,  
and turn the music up.  
I love the way you cough,  
when you breathe my smoke.

And please light my cigarette.  
Keep on smiling,  
and turn the music up.  
I love the way you cough,  
when you breathe my smoke.

when you breathe my smoke.

My smoke.
