

Vera Vuitton, Tender

Hey Can I talk to you for a minute?
You see, its not you
Its just ..well, I've been in love before
And I've had my heart broken
I can't go through that again, ya know?
If I let you in my world, completely
Would you let me..down,
And break my heart?
Cause sometimes love, can come and go
And I dont want to, cry no
So tell me boy..
Ever showed you how you control my mind
Would you hold it against me and take advantage of me?
And ever showed you how from within my soul
Don't take advantage of me because my heart is tender
So tell me how
Are you feeling now
Just let me know
Will you stick around?
Forever..
We're in to deep to turn away
From what's meant to be
Let's let our love shine
Just be careful with my heart

Ooh, Ooh
Boy you got me
So baby care for me
Tender that's me
For you only
But dreams don't hurt me
Baby, give me love

Ooh, Ooh
Boy you got me
So baby care for me
Tender that's me
For you only
But dreams don't hurt me
Baby, give me love

Ooh, Ooh
Boy you got me
So baby care for me
Tender that's me
For you only
But dreams don't hurt me
Baby, give me love
