

# Vergelmer, In The Dead Of Winter

I walked through virgin snow  
My soul is lost  
There is no way out

The cold winds bites my naked skin  
(I know my time has come)  
But death I fear not

Dying is just a passage  
to eternal life  
To live immortally

Crawling naked through  
Endless deserts  
Of ice and snow

I can not stand this pain  
These storms so cold

Peeling the skin from my body  
O Satan  
Take me

Have mercy on my soul  
And set me free  
I've lived long enough  
Please let me join thee

The snow is blinding my eyes  
I can no longer see

I lay my head down on the ice  
And let the snow  
Cover me

I feel so weak  
I can no longer breath

I see no light  
AH, Satan  
Take me!

I feel no more pain  
I am frozen still  
No more fear

On my way, homeward  
Under the wings  
Of Lucifer

I can see the darkness  
I have been set free

I am no longer mortal  
I live eternally  
I leave the dead of winter  
I leave you all behind  
I leave to meet my master  
And all the dark i find
