

# Vergeltung, Cold War

Intolerance glows like embers  
Cold flame burns hot in the hearts  
Both teeth and fists are clenched  
Eyes sparkle from behind bars

Cold fire begets  
incandescent blaze  
Disdain is to sire the hate  
There's none to find  
the exit from maze  
Being lead by the meanest pates

The sun will sink in the fog of war  
Step ahead and there's no way back  
Enthropy shall burst the  
nuclear bud

We exalt the dawn of the dead
