

Veronica Glapa, Frozer

So many people wanna destroy me
Wanna Have my life on their hands
They lettin rumors to make me doubt again
But I gotta tell you
Id never gonna give up
Whatever what you would to do
Destroy
Killed
Or making anty-clubs
Im myself in every ways
You cant saying you know me
When youre just jelous
About who I am
And what Im carrying with myself
You are loser
You never gonna let me down
Even when you going to try
So .. lets start
Was looking throught those days
Saying what a shame
Was looking at those situations Isnane
Little shy y-y Girl with a dream
Always looked for friends , or another way
To got-away from school in those days
You arent what you seemed to be
You made my life saw all the fears
Refrain:
You are just nothing to compare
You cant make anything to me
But you will never make me down again
You and your worst friends
Now frozer
Where is the happy and nice Girl
Now she just empty with dark nails
I barely stand on my legs
And then just fall again
Fro-o-zer in time
Never let me down
