

Veronica Glapa, That's Who I am

I always hid all of my feels
Deep within
I've been afraid to show whole world
Who I may be
But I had a Vision
About all my life
I gotta stop being afraid
And fly
Away from dark
Away from dark
Refrain:
I'm still me
I'm still here
I'm still that Girl that you have ever met at first
And I gotta show
My own worth
Now I found My own self
And I'm not afraid to show it anywhere
Anywhere
That's who I am
You can't imagine how it likes
When you lose the light in dark
When you dreamin' about life when everything has great
I know my wish is too far away
But I have to believe in my own
And show me the world
Refrain:
I'm still me
I'm still here
I'm still that Girl that you have ever met at first
And I gotta show
My own worth
Now I found My own self
And I'm not afraid to show it anywhere
Anywhere
That's who I am
I found someone with amazing Voice
And I'm singing that song
I have to find you
I know I'll find you
You're the best thing I had have
And I'm still waiting long
I gotta find you
I know I'll find you
Refrain:
I'm still me
I'm still here
I'm still that Girl that you have ever met at first
And I gotta show
My own worth
Now I found My own self
And I'm not afraid to show it anywhere
Anywhere
That's who I am
