

# Versaemerge, Figure It Out

With a swerve, my eyes avert  
My mouth somehow forgets to work  
So I stare until you shout  
Wondering why you can't figure me out  
With a change, I call the names  
I'm spitting out words, hoping it works  
Still I stare while they all shout  
Why can't I even figure it out?

The time I'm wasting  
Can't say where I've been  
Catching my same old way  
Slowly spin beneath the day  
Your time I'm wasting  
Can't say where we've been  
Cause it seems to me that  
Nothing's what it's ever meant to be

With my fate, my thoughts erase  
My head's a blur, the picture fades  
My eyes, they keep on shutting down  
I can't see why you won't figure me out

The time I'm wasting  
Can't say where I've been  
Catching my same old way  
Slowly spin beneath the day  
Your time I'm wasting  
Can't say where we've been  
Cause it seems to me that  
Nothing's what it's ever meant to be

Why can't you figure me out?

With a twist  
My mind has missed  
You said  
That I forget

The time I'm wasting  
Can't say where I've been  
Catching my same old way  
Slowly spin beneath the day  
Your time I'm wasting  
Can't say where we've been  
Cause it seems to me that  
Nothing's what it's ever meant to be  
Your time I'm wasting  
Can't say where we've been  
Cause it seems to me that  
No ones ever who theyre meant to be
