

# Vertical Horizon, Echo

Echo, echo  
we come and we go  
No I don't want to  
be just another  
Echo, echo

Everywhere I go  
There's something that I really need  
Everyone I know  
is someone that I want to be  
Even though  
I don't really know me

I'd better pick it up  
before I let it slip it away  
Better stick it out  
before I take another day  
Hand to mouth  
And every single word I say fades out

Chorus

Can I open up your eyes  
Only when the clouds break  
Can I feel alive  
even though the world shakes  
Every night  
here in my quiet satellite

Can I hold you close  
do I rather focus  
and everything I know  
I don't even notice  
when it all falls through  
I'm here and I hear you

Chorus

Do you hear me?  
Do you hear me?  
'cause I need to  
just to reach you  
Can you hear me?  
coming clearly  
Am I hollow  
Just an echo

Chorus Twice

It's just another day  
and every single word I say fades out
