## Vertical Horizon, Echo

Echo, echo we come and we go No I don't want to be just another Echo, echo

Everywhere I go
There's something that I really need
Everyone I know
is someone that I want to be
Even though
I don't really know me

I'd better pick it up before I let it slip it away Better stick it out before I take another day Hand to mouth And every single word I say fades out

## Chorus

Can I open up your eyes Only when the clouds break Can I feel alive even though the world shakes Every night here in my quiet sattelite

Can I hold you close do I rather focus and everything I know I don't even notice when it all falls through I'm here and I hear you

## Chorus

Do you hear me?
Do you hear me?
'cause I need to
just to reach you
Can you hear me?
coming clearly
Am I hollow
Just an echo

## **Chorus Twice**

It's just another day and every single word I say fades out
