

Vertical Horizon, It's Over

I'm here
Wide awake again
There's fear
There's something I call a friend
Hello again
It's been a while since I saw you here
I don't remember you saying goodbye, no

It don't matter, it's over
here I've been waiting
All my life
All this time

It don't matter, it's over
here I've been waiting
All my life
All this time

Here we go
Jump to the stars above
So low
Why do I fall to love
Hello, my love

This voice never called your name
This boy will never be the same

Oh, it don't matter, it's over
here I've been waiting
All my life
All this time

It don't matter, it's over
here I've been waiting
All my life
All this time

Don't let it end up this way
Don't spend another night afraid
Don't let it end up this way, hey

It don't matter, it's over
here I've been waiting
All my life
All this time

It don't matter, it's over
here I've been waiting
All my life
All this time

I'm here
Wide awake again
