

# Vertical Horizon, Life In The City

Cut it down go put it away  
Take an inside look on the outside  
Another day

Take time look at the sunshine  
Have mine it's better on you anyway

Nobody's perfect all the time  
But I know you  
And you know me  
And it's alright

I'm waking up gonna buy me some shoes  
Take a long walk out of the hindsight start anew

Look around maybe buy a new topcoat  
Stop moping the rain's gonna rain through  
Rain through on you  
Yes it's true that

Nobody's sunny all the time  
But I know you and you know me  
And it's alright

And it's your life  
and it's my life  
It's our life in the city

Get a new place out in the hills  
Plant a seed I'm in need of a break from the fire drill  
Repaint where all the paint ain't  
Get a clean slate and maybe we can buy a thrill  
I'll foot that bill  
Yes I will 'cause

Nobody's busy all the time  
But I know you  
And you know me  
And it's alright
