

Vertical Horizon, Sunshine

Sometimes I can't get enough of you
This friendly game keeps getting rough
I think I'm breaking through
I cannot hide this well
As well as I should
There's always something left to tell
And tell me is it good?

Chorus

I see you
Do you see me too?
Close your eyes and meet me in the sunshine
Come on through
I will find you
Close your eyes and meet me in the sunshine

I guess you chose a different road
and I am not aware
I got no one that's been closed
Shutdown for repair
I hope that I weigh in my head
Who lives like a king
I throw away the things I said
And I said everything

Chorus

Meet me in the sunshine
Meet me in the sunshine

There's something better in this league
I'm getting it all
I feel the warmth, I feel the greed
and I feel the fall
I hope this window's wide enough
to keep the whole world
I want to spit out all this stuff
and keep the girl

Chorus

Meet me in the sunshine
Meet me in the sunshine
