

Vertical Horizon, When You Cry

Heaven knows that you're with me now
Heaven knows that you're here
I feel your breath all around me now
And all the pain disappears

It goes away, it goes away

Chorus:
And it only hurts
When you cry
I'm only sad
when there's tears in your eyes
I can't lie and say I'm fine
but it only hurts
When you cry

You carry too much on your shoulders
I can't wait 'til you let me down
'cause the only thing we're getting is older
This time never comes back around

It just goes way, it goes away

Chorus

When you cry

Heaven knows that you're with me now
And I'll do my best do hold on
'cause nothing is worth all this fighting now
'cause I won't cure 'til it's gone

Make it go away, go away
Make it go away, go away

Chorus

It hurts when you cry
When you cry
