

# Vertigo Angels, Still On My Own

i'm sick of breathing what can i do?  
i'm always waiting i wait for you  
there's something missing what can i do?  
i'm still on my own  
just look what's around you do you dare?  
the love that surrounds you do you care?  
just look what's around you  
when you turn on me why do you always act that way?  
i'm sick of faking what can i do?  
i'm bruised and aching i ache for you  
i'm sick of breathing what can i do?  
i'm still on my own  
just look what's around you do you dare?  
the love that surrounds you do you care?  
just look what's around you  
when you turn on me why do you always act that way?  
just look what's around you do you dare?  
the love that surrounds you do you care?  
just look what's around you  
when you turn on me why do you always act that way?  
just look what's around you do you dare?  
the love that surrounds you do you care?  
just look what's around you  
when you turn on me why do you always act that way?  
why do you always act that way?
