

Via Dolorosa, What A Beautiful Landscape

Turn around, what you see?
People - robots, life - in chains,
Insanity corrupts our minds
Earth is dying, world as demise...
& Freedom is just a dream,
Feral terrors rule the world...
Dreadful, monstrous termination,
Endless evil domination!...
Satan's world,
Satan's land,
Satan's people, Satan's lives...
But I've opened my eyes!
Darkness rules, bloodsheds start,
Fear laughing all the time,
Forcing violence is around
There is no truth, there is no light...
Wisdom dies in despair, no faith in your deeds,
Always watching you somewhere, evil face is everywhere...
Darkness rules our world
Listening to evil words...
Satan's words, Satan's rules:
F**k them all, & kill them all,
and you will never die...
But I say that's f**king lie!
Atrocity, hypocrisy, hatred, no democracy
World corrupted cruelty
Hope is sold, Justice - deaf,
People - blind, cold & numb,
Terror raised, devil's land, - world in hate!...
Bloodsheds everywhere, death demands next
Sacrifice...
Sacrifice...

Cursed be, damned be,
You will never get me
I can see the end
Of your f**king land...
I met death & I felt hell,
That is monstrous I shall tell,
Face your greatest fear,
End of it is very near!...
