

# Viagra Boys, Creepy Crawlers

Oh, oh, I can't believe it  
I can't believe what I read last night  
Man, there's little kids growing up with animal hair  
Some of 'em are growing up with tails, maybe even two tails, man  
They're putting in little microchips into  
They're putting microchips in the vaccines  
Little creepy crawlies  
With tiny little legs that creep around your body  
Collecting information, oh, collecting information  
They're putting little creepy crawlies in the vaccine  
You wonder why those people look so young?  
You wonder why those people up at the top look so young?  
I'll tell you why  
Oh, they're injecting adrenochrome to keep the skin all shiny  
It reduces wrinkling  
And it makes the pupils look like human pupils  
And not all slanted little lizard eyes  
Oh, they got kids growing up with animal tails, man  
They're putting microchips in the vaccine  
And they're putting creepy crawlies in the microchips  
The kids without the vaccines are getting harvested  
Because their blood isn't tainted  
Oh, their blood is pure  
Their blood is pure and it's perfect for adrenochrome  
Adrenochrome  
They're turning kids into adrenochrome  
They're turning kids into adrenochrome  
They're turning kids into adrenochrome  
Can you believe it?  
Lizard people  
Oh, they're harvesting our children  
Our children are growing up with lizard gills and animal hair  
That ain't normal baby hair, that's animal hair  
You can tell if you touch it  
Oh, it's disgusting  
I can't believe it  
When I was younger none of this existed  
Everything was fine, everything was perfect and now it's ruined  
It's ruined 'cause you voted on the wrong motherfucker  
Because you didn't believe it  
You wouldn't believe the sources that I linked you  
I told you to read  
I told you to do your research  
I told you, man  
I told you they're harvesting babies for adrenochrome
