

Vibekingz & Maliq, Be my Lady

Yeah ... baby, I know it sounds strange
But only love knows
That you really got me
You're so special to me
I have seen a lot of faces
Beautiful one
But noone is like you
Now I'm sittin' in my room
And all that I'll be up to do
Steady thinkin' about you, yeah
You really get me feel so strange
Cause all we had was just one day
But you drag me in this way
(przejście:1)
Baby
You drive me crazy
Want you to be my lady... oho...
People tell me that I'm crazy but I'm going lovin' you babe
No matter where you are, no matter where you go, for sure
Cause you gonna be my love and be my friend and be my home
You are the only and only
(Refren:)
Baby, won't you be my lady
I will be your fan, your man, your husband
Baby, say you'll be my lady
Say you'll be my girl, my fan, my woman
I hope you listen to my words
Oh yes, we gonna make this work
You're a diamond in this world, yeah
All you need is trust in me
Still went there and there we'll see
If we both are meant to be
