

VICARUS, Above the sky (feat. D.N.A.)

Let take ride with nobody
The places we go
We can drive in
With you be my side
I'm just flying
All day and all night
We keep driving

You make me feel like /2x
We fly above the sky
You make me feel like /3x
We fly above the sky

I feel so live
When you're around me
It seems like sun always shining
All day and all night
We keep driving

You make me feel like /2x
We fly above the sky
You make me feel like /3x
We fly above the sky
