

# VICARUS, Above the sky (feat. D.N.A.)

Let take ride with nobody  
The places we go  
We can drive in  
With you be my side  
I'm just flying  
All day and all night  
We keep driving

You make me feel like /2x  
We fly above the sky  
You make me feel like /3x  
We fly above the sky

I feel so live  
When you're around me  
It seems like sun always shining  
All day and all night  
We keep driving

You make me feel like /2x  
We fly above the sky  
You make me feel like /3x  
We fly above the sky
