

Vice Squad, Britain Is Still Burning

Have you heard about the new religion?
Wake up sleeping citizens!
Stand up with the rebellion
Subversion's back again

Spikey hair brought into the main stream
Air brushed in a magazine
But the real thing is on the streets and
They know what they wanna be

Everywhere you go you'll find them
Still kicking off

Though you try you can't stop this
New generation learning
All this is our heritage
And Britain is still burning

Get seen by your own creation
Break free from your apathy
Take a look at the hidden nation
'cause we're no silent minority

Don't try to divide and conquer
We've got strength through unity
Stand up for the true punk rockers
They know what they wanna be

Burn on Britain
