

Vice Squad, Lo-Fi Life

Life is complicated
Yours is underrated
The less you have, the less you get
There ain't no safety net

Pleasure never tasted
All the time you wasted
Got to pass the means test
Lowest of the lowest

[Chorus]
Endless night money always tight
in the city limits
Lo-Fi life how can you survive
how're you gonna live it

Acid rain on concrete
Burning holes in your street
Ranting politician
Won't build a better Britain

The people at the bottom
Bound to be forgotten
Better try to have some fun
Ten seconds in the sun

[Chorus Repeat]
Endless night money always tight
in the city limits
Lo-Fi life how can you survive
how're you gonna live it
Big high rise blocking out the light
in the city limits
Lo-Fi life how can you survive
How're you gonna live it
Oh oh this is a lo-fi life
oh oh low lo-fi life
oh oh you're in for life
