## Vicious Rumors, Ship Of Fools

(Lyrics & Amp; Music: Vicious Rumors)

The key to love is understanding Will it come down from above or will it fade away yeah Ohh.. we can make it together Take it in stride loving each other Ship of fools take us away from here What lies ahead is becoming all too clear Listen and learn-we can start today Oh can I trust you to trust me or will you throw my heart away Ohh... we can make it together Just one more try oh... oh... loving forever Ship of fools-take us away from here What lies ahead is becoming all too clear (Lead) Ship of fools take us away from here What lies ahead is becoming all too clear Ship of fools-oh take us away from here What lies ahead is becoming all too clear
