

Vicky Beeching, Everyone Under The Sun

Come if you're joyful, happy, laughing
With a song spilling out of your soul
Come if you're broken and all that you know is
Your life is spinning out of control

Come if you've never had a father and
You're looking for a Father who will hold you in His arms
Wherever you've been, just come on in
No distance is too far

Chorus:
Come everyone under the sun
Lift up your heart to the Savior
Come everyone under the sun
And feel how it feels to be loved
Everyone, everyone under the sun

Come if you're addicted, in chains and afflicted
Welcome to freedom's embrace
Come if you're hiding your struggles inside
To the One who loves you anyway

Come and find the meaning of life is
To worship the God who can heal every heart
Wherever you've been just come on in
No distance is too far

(chorus 2x)

Millions of voices, just one song
Come to the place where we belong

Come everyone under the sun
Lift up your heart to the Savior
Come everyone under the sun
And feel how it feels to be loved
Come everyone who walks this earth
Lift up your song to the heavens
Everyone, everyone under the sun
