

# Victoria Beckham, Back To Life

Fallin' in love again  
Used to say, baby not me  
Broken hearts, torn apart  
All you get  
I'd rather be free

Thank my lucky stars  
That you came along  
Took me in your arms  
Till you made me strong  
Made me see that love don't always do me wrong

You brought me back to life  
You showed me who I am  
Is worthy of a real good love  
Back to life  
And now I'm gonna share my love with you  
You brought me back to life

Never thought  
I could walk  
Through the fire for anyone  
But never doubt  
I'm about loving you  
Whatever comes

You took time to know  
There was more to me  
Now there's even more  
That you couldn't see  
Fall into these arms you've opened up baby

You brought me back to life  
You showed me who I am  
Is worthy of a real good love  
Back to life  
And now I'm gonna share my love with you  
Oh, you brought me back to life

You turned my world around  
And made me feel a love for real  
Back to life  
And now i'm gonna share it all with you  
Because you brought me back to life

Back to life  
Back to life  
You brought me back to life  
Back to life  
Back to life

Thank my lucky stars  
That you came along  
Took me in your arms  
Till you made me strong  
Made me see that love ain't out to do me wrong

Back to life  
Back to life

And now I'm gonna share it all with you  
Oh you brought me back to life  
You showed me who I am  
Is worthy of a real good love

Back to life  
And now I'm gonna share my love with you  
Oh you brought me back to life  
You showed me who I am  
Is worthy of a really really good love  
And now I'm gonna share it all with you  
  
You brought me back to life
