

# Victoria Beckham, Every little thing

Oh whoa

When you want it, gotta have it,

Wanna have a little more

When you've done it, got up on it

Everybody knows the score

All I want is somebody to walk by my side everyday in the sun

All I need is somebody to be there to show me just where I belong

Every little thing that you say and do

Every little thing it makes me fall for you

No one can stop us tonight

Every little thing that you do and say

Every single word, it takes me far away

No one can stop us tonight

Everything will be alright

When I need it, I believe it

You gotta give it a try (give it a try)

I can breathe it, I really feel it

And it's making me so high

All I want is somebody to walk by my side everyday in the sun

All I need is somebody to be there to show me just where I belong

Every little thing that you say and do

Every little thing it makes me fall for you

No one can stop us tonight (tonight)

Every little thing that you do and say

Every single word, it takes me far away

No one can stop us tonight

Everything will be alright

Everything will be alright

Right now, give it to me

Right now, give it to me

Right now, wanna get on

Right now, give it to me

Right now, give it to me

Right now, baby come on

Every little thing that you say and do

Every little thing it makes me fall for you

No one can stop us tonight (no no)

Every little thing that you do and say

Every single word, it takes me far away

No one can stop us tonight

Everything will be alright

Every little thing that you say and do

Every little thing it makes me fall for you

No one can stop us tonight

Every little thing that you do and say

Every single word, it takes me far away

No one can stop us tonight

Everything will be alright

Everything will be alright

Everything will be alright
