

Victoria Monét, Smoke (ft. Lucky Daye)

Little fireworks that light up for me
In my fingertips I burn my worries
Do it something like that 8 track Shawty
Keep it in rotation, it's a celebration every time we
Smoke
Smoke
Do it something like that 8 track Shawty
Keep it in rotation, it's a celebration every time we

You don't even gotta ask, you know I got some pre-rolls in the bag, who should I shotgun
To the left or the right long as it rotate
It's a bisexual blunt, it can go both ways

Hot box while you hit the box
Top get you to the top
Rock but if it's a lot
I can take that from you
Got nothing but that gas
Pass it then pass it back
Cough you don't need a mask
This that shit you smoke to

Little fireworks that light up for me
In my fingertips I burn my worries
Do it something like that 8 track Shawty
Keep it in rotation, it's a celebration every time we
Smoke
Smoke
Do it something like that 8 track Shawty
Keep it in rotation, it's a celebration every time we:

Tree got the smoke now
We just need a lighter
That body ah
She got that Earth Wind and Fire
If you know how to roll then come
Be my supplier
Up in the clouds
We get high like Mariah

Hot box while you hit the box
Top get you to the top
Rock but if it's a lot
I can take that from you
Got nothing but that gas
Pass it then pass it back
Cough, you don't need a mask
This that shit you smoke

Little fireworks that light up for me
In my fingertips I burn my worries
Do it something like that 8 track Shawty
Keep it in rotation, it's a celebration everytime we
Smoke
Smoke
Do it something like that 8 track Shawty
Keep it in rotation, it's a celebration every time we:

Lucky and V. Monét
Sound like your Lucky Daye
Roll up and let it play
This that shit you smoke to

Let me hit that pipe before the pipe
Or you can use a candle
Just to make a blunt light for you
Let's end this night on a high note
You go and then I'll blow
Let me set the mood right for you

Baby can we smoke
Baby can we smoke
