

VICTORIA, The Worst

My apologies,
That you feel the need
To count everyone of my flaws

It's not lost on me
That I might not be
Exactly how you want

Inside my castle
Mind is fragile
Like a slipper made of glass
Meant to break and not to last
(Mmm)

Nobody's born a villain
But you made sure to draw it out
You know just how to make me believe it
Like it or not it's a part of me now

You're the worst
I Will make sure that nobody loves you
You're the worst
And i'll make sure that nobody cares
I know You're the worst
You can't picture yourself without me
And the worst
Is that I'm just a part of you

It's kind of a tragedy
Same old history
Making eachother feel small

No more sympathy
We burn easily
Just like a house made of cards

Kinda thought it'd be over now
I've been stuck in the silence for too long
Afraid that i'd never get out
(Mmmm)

You're the worst
I Will make sure that nobody loves you
You're the worst
And i'll make sure that nobody cares
I know You're the worst
You can't picture yourself without me
And the worst
Is that I'm just a part of you

Nobody's born a villain
(But you made me one)
Yeah, you made sure to draw it out
(Look what i've become)
You know just how to make me believe it
Like it or not it's a part of me now

I'm the worst
I will make sure that nobody loves me
I'm the worst
And I'll make sure that nobody cares
I know I am the worst
I can picture myself without you
But the worst

Is that you're still a part of me
