

# Victory, Are You Ready

I hear there's a party tonight  
Everybody's out on the town  
Gonna have the time of my life  
Everybody's getting on down  
So hurry up, baby, don't be lazy  
Let the music drive you crazy  
Tell me, tell me that you're right tonight  
Let me know, let me go, let it go  
Are you ready, are you ready to rock and roll tonight?  
Say you're ready, say you're ready to rock and roll  
All night, all night  
Ooh baby you're in all my dreams  
Everybody knows my desire  
You can tell by the way that I scream  
You set my pants on fire  
So hurry up, baby, don't be lazy  
Let the music drive you crazy  
Are you hot tonight  
Let me know, let me go, let it go  
Are you ready, are you ready to rock and roll tonight?  
Say you're ready, say you're ready to rock and roll  
All night, all night  
Are you ready, are you ready to rock and roll tonight?  
Say you're ready, say you're ready to rock and roll  
All night  
Are you ready, are you ready to rock and roll tonight?  
Say you're ready, say you're ready to rock and roll tonight  
Are you ready, are you ready to rock and roll tonight?  
Say you're ready, say you're ready to rock and roll tonight  
Are you ready, are you ready to rock and roll tonight?  
Say you're ready, say you're ready to rock and roll  
All night
