

Victory, Love Is Tuff

Im paralysed and broken hearted
Ive never felt this way before
Good love is strange
- But once youve started
Theres no way out
- You beg for more
When lightning strikes
- Youre more than blinded
Youre deaf and dumb
- Defences down
Im suffering from emotionitis
Just not aware of sight or sound
Everybody says shes no good for me
How can I be saved
Now Im in so deep

Im hung up need the love drug
Cant get enough
I cant get enough
Of everybody she does

I hunger for the touch
I need so much

Im hung up I need the love drug
Cant get enough
Let me lie to myself again
Love is tuff

What can I do but hit the bottle
An easy friend for a heart in pain
A hopeless fool in serious trouble
Not tough enough
For the toughest game
