

Victory, Rebel Ready

I feel excited when she passes me by
Someone in my head says
Don't mess with jailbait
Put yourself in my position
Battle of the heart

Rebel ready - set me free
From this frustration
Imprisoning me
Rebel ready - set me free
Bring out the renegade
The rebel in me

Oh! Only the slightest touch
Burns - burns like a thunderball

One voice in me says
Seduce her on first date
(You know you know she'll like it
You know she'll like it baby)
Voice number three says
Maybe we should just wait
(You know you know she'll like it
you know she'll like it baby)

Put yourself in my position
Battle of the heart

Rebel ready - set me free
From this frustration
Imprisoning me
Rebel ready - set me free
Bring out the renegade
The rebel in me

Oh! Only the slightest touch
Burns - burns like a thunderball

Got so much passion
Just waiting for action
(You know you know she'll like it
You know she'll like it baby)
Why can't I follow
The natural reaction
(You know you know she'll like it
You know she'll like it baby)

Put yourself in my position
Battle of the heart
Battle of the heart

Rebel ready - set me free
From this frustration
Imprisoning me
Rebel ready - set me free
Bring out the renegade
The rebel in me

Oh! Only the slightest touch
Burns - burns like a thunderball
