

# Victory, Temples Of Gold

Hey, don't be fooled  
By the words of someone who lies  
And don't be fooled by the plan  
Behind TV preachers smiles  
He's just pretending  
He's communicating with God

They want your money  
On your conscience they'll play  
My friend do not believe  
A word that they say

In their temples of gold  
In their temples of gold  
God wouldn't want you to pay

If you are searching for the  
Straight up meaning of life  
Buddy, that's something that  
Your hard earned money can't buy  
Switch off you TV  
In the real world you'll see  
10.000 preachers  
Who are doin' it for free

With no temples of gold  
With no temples of gold  
Just bricks and stones  
With no temples of gold  
God wouldn't want you to pay

They want your money  
On your conscience they'll play  
My friend do not believe  
A word that they say

In their temples of gold  
In their temples of gold  
You pay - they win  
In their temples of gold  
In their temples of gold  
God wouldn't want you to pay
