

Victory, Under The Sun

Playing with danger
Like never before
Up on the tightrope of life
You cant fight no more
- fight no more

visions of power and money galore
die in a flickering light
you cant fight no more
- fight no more

Suddenly youre caught
- suddenly youre tied
Yesterday is screwing
Your whole body and mind
Suddenly the streets
Lost their coat of gold
No one needs a loser oh no

Cause life goes on
Time waits for no one
Under the sun
Cause life goes on
Youre here then youre gone
Under the sun
Living dying fighting
Underneath the sun

Once you were one
Of the heaviest guys
Ruling your empire
Without fear or compromise
No compromise

Nothing or no one
Could stand in your way
Reckless and ruthless
We knew that someday youd pay
Man youd pay

Systems to left
Systems to the right
Everyone is busy
Trying to beat the other side
The winner takes it all
Powers got control
No one needs a loser oh no

Cause life goes on
Time waits for no one
Under the sun
Cause life goes on
Youre here then youre gone
Under the sun
Living dying fighting
Underneath the sun
