

Ville Valo, Echolocate Your Love (VV)

Me, Suspiria sunset
In technidollar hues
Our heartsick lupine lullabies
From the hymnal of the doomed
Night crowned us, drama king and queen
If you wanna dream what I dream
Don't close your eyes
If you wanna feel what I feel
Kill the lie
Echolocate your love
Baby, echolocate the heart of
Heart of, heart of locks
Echolocate your love
Pinpoint the poison
The last dance into the raging sea, darling
Beyond the hate of thee who bow up
On the devil's directory, next to
The hellhounds of Hecate, baby
Let's take the scenic route through hell
If you wanna see what I see
Go on and close your eyes
If you wanna feel what I feel
Kill the lie
I'm watching you and me my dear
We come undone, we disappear
Feel what I feel, oh
Kill the lie
Echolocate your love
Baby, echolocate the heart of
Heart of, heart of locks
Echolocate your love
Pinpoint the poison
Baby, echolocate the heart of
Heart of, heart of locks
(Heart of, heart of)
Heart of locks
(Heart of)
Pinpoint the poison
