

VINCE GILL, I Never Knew Lonely

(Vince Gill)

No other lover ever really cared
When I've reached out for you you've always been there
Now I'm so far away and baby I'm scared
I never knew lonely til you

You are my rock and the strength I need
To keep me sane in this life that I lead
Now I'm not with you and my broken heart bleeds
I never knew lonely til you

I never knew lonely could be so blue
I never knew lonely could tear you in two
I never loved someone like I love you
I never knew lonely til you

I can't make up for the times I've been gone
But I'll prove I love you in the words of this song
Back in your arms girl it's where I belong
I never knew lonely til you

I never knew lonely could be so blue
I never knew lonely could tear you in two
I never loved someone like I love you
I never knew lonely til you
