

VINCE GILL, Lucy Dee

(Steve Earl)

I've been sittin' here talkin' at you all night long
Now honey you still come off cool
Well you could have walked away instead you're leadin' me on
Lucy who you tryin' to fool

[Chorus:]

Yeah, Lucy Dee
You ain't got to run that line on me
Well it's plain to see
That you ain't all that you're made out to be
Well you can tell all your friends
That you finally met your equal, Lucy Dee

You've known all along just what I'm talkin' about
Well you knew someday there'd come a man
Who wouldn't keep on givin' 'til he finally gave out
Lucy, honey, here I stand

[Chorus]

Well you tell me you've known every thrill there is to know
And nothin' in this life comes free... nothin'
Well you tell me you've been every way there is to go
Lucy you ain't been with me

[Chorus]

Poor Lucy Dee
