

# Vince Neil, Can't Have Your Cake

When I was a young boy my mama would say  
Son, you aint always gonna get your way  
Times will be good, times will be bad  
You aint always gonna get a winning hand  
Son, she always said, you gotta stand tall  
Even when it looks like youll take a fall  
Life is short and sometimes sweet  
Get yout of the kitchen if you cant take the heat

Everything she said was true  
My mama never was a fool  
Gotta live your life by the golden rule

I guess its true what they say  
Really true what they say  
I guess what mama said  
Was true  
Cant have your cake and eat it too, babe

I never doubted any word my  
Mutha said  
With all the sinnin runnin  
round my head  
Everything she said was true  
My mama never was a fool  
Gotta live your life by the golden rule  
I guess its true what they say  
Everything she said was true  
Mama never was a fool  
Gotta live your life by the golden rule

I guess its true what they say  
Really true what they say  
I guess what mama said  
Was true  
Cant have your cake and eat it too, babe
