Vince Neil, One Way

Put my mind at rest Do what you want to do Wouldn't be the first time that you ever did Given it away Do what you want to do Ya ya

All the words you shit
Say what you want to say
It could be the last time you ever will
Kick in my face
Say what you want to say
Ya ya

(chorus)
You can tell by the words that this ain't no love song
Kiss the dirt and walk away
It's only one way

What's inside your head Gets inside my skin Always doin' what you want to do Makes me want to say Screw what you want to screw Ya ya

(chorus)(chorus)
