

Vince Vance & The Valiants, Christmas Time In T

When it's Christams time in Texas
It's a verry special time for me
In Texas we'll be swingin'
Around the Christams tree
Dancin' to a Christmas melody
When it's Christmas time in Texas
It might look just like a summer day
There may not be snow in San Antonio
But it's a Texas Christmas to me

When Santa Claus slips over the border
It'll sound a little different when he sings
Cause he'll hear those twin fiddle's playin'
A Christmas song with a touch of western swing
There may not be snow in San Antonio
But it's a Texas Christmas to me

When it's Christmas time in Texas
I love to hear those Christmas carolers sing
People on the go
Children's faces all aglow
Wonderin' what Santa's gonna bring
Grandpa's been chasin' grandma around
Tryin' to catch her neath the misteltoe
Everything is right
The lone star shinin' bright
But it's a Texas Christmas to me

And here's wishin' you all a merry Christmas
Merry Christmas from Texas and me
